

NOTE:  
Please read additional instructions about  
HIDRIA EC MOD-BUS Parameters and  
about control options.

WARNING:  
- Before opening connection box switch off electric power!  
- Dangerous voltages, capacitor discharge time 5min!

NOTE:  
Please read user's guide for more instructions  
about control options and before putting the fan into  
operation.

SELV MOD-BUS CONTROL OUT/IN

CONTROL OPTIONS (customer's circuit) :

Max. speed    analog input    sensor    potentiometer    PWM    analog input  
0-10V    0-10V    (Variable resistance)    frequency input    0-20mA  
1-10kHz
