

LWF-1300/3200 Series

Product Characteristic

- Exquisite,compact design,beautiful,safe and durable
- Front-mounted handle, lightweight and convenient for mobility
- Scientific design, easy and user-friendly operation
- Configure the size of the foot pad to adjust the wind direction angle to meet different environmental needs
- Motor net cover, prevent motor from sucking in debris
- Removable air deflector to meet various working requirements and increase work efficiency
- High wind power,low noise,suitable for various cleaning industries such as homes,offices,hotels,and shopping malls

Model	Voltage (V)	Frequency (Hz)	Power (W)	Wind Speed (m/s)	Speed (r/min)	Noise dB(A)
LWF-1300-01B	220	50	1000~1300	25	1480	79
LWF-1300-02B	220	50	1000~1300	25	1480	79
LWF-3200-01B	220	50	3200	25	1480	80

LWF-300 Series

Product Characteristic

- Exquisite,compact design,beautiful,safe and durable
- Front-mounted handle, lightweight and convenient for mobility
- Scientific design, easy and user-friendly operation
- Configure the size of the foot pad to adjust the wind direction angle to meet different environmental needs
- Motor net cover, prevent motor from sucking in debris
- Removable air deflector to meet various working requirements and increase work efficiency
- High wind power,low noise,suitable for various cleaning industries such as homes,offices,hotels,and shopping malls

Technical Specifications

Model	LWF-300-01A	Wind Speed	13m/s
Rated Voltage	220V	Air Volume	17m³/s
Rated Power	300W	Speed	1280r/min
Rated Frequency	50Hz	Noise	62dB(A)
